

Plaster Rail Ceiling Mounted

- Raw Aluminium.
- This extrusion is fitted to the perimeter of a space prior to the installation of the Drywall. After setting, it creates both shadowline and a hanging system.
- The extrusion is aluminium with strong weight capacity once set into existing joists
- The plasterboard is set over the rail with no protrusions. The rail comes in 2.5 meter lengths and is attached directly to ceiling joists or ferring channels in fixed or suspended ceilings
- T-anchor hangers can be inserted anywhere along the track.

This product (rail only) can't be ordered online! Please call us for enquiries.
